

## Protranslate Academic Translation and Proofreading/Editing Service

5000+ Customers

300+ Translators

70+ Languages

30+ Fields of Expertise

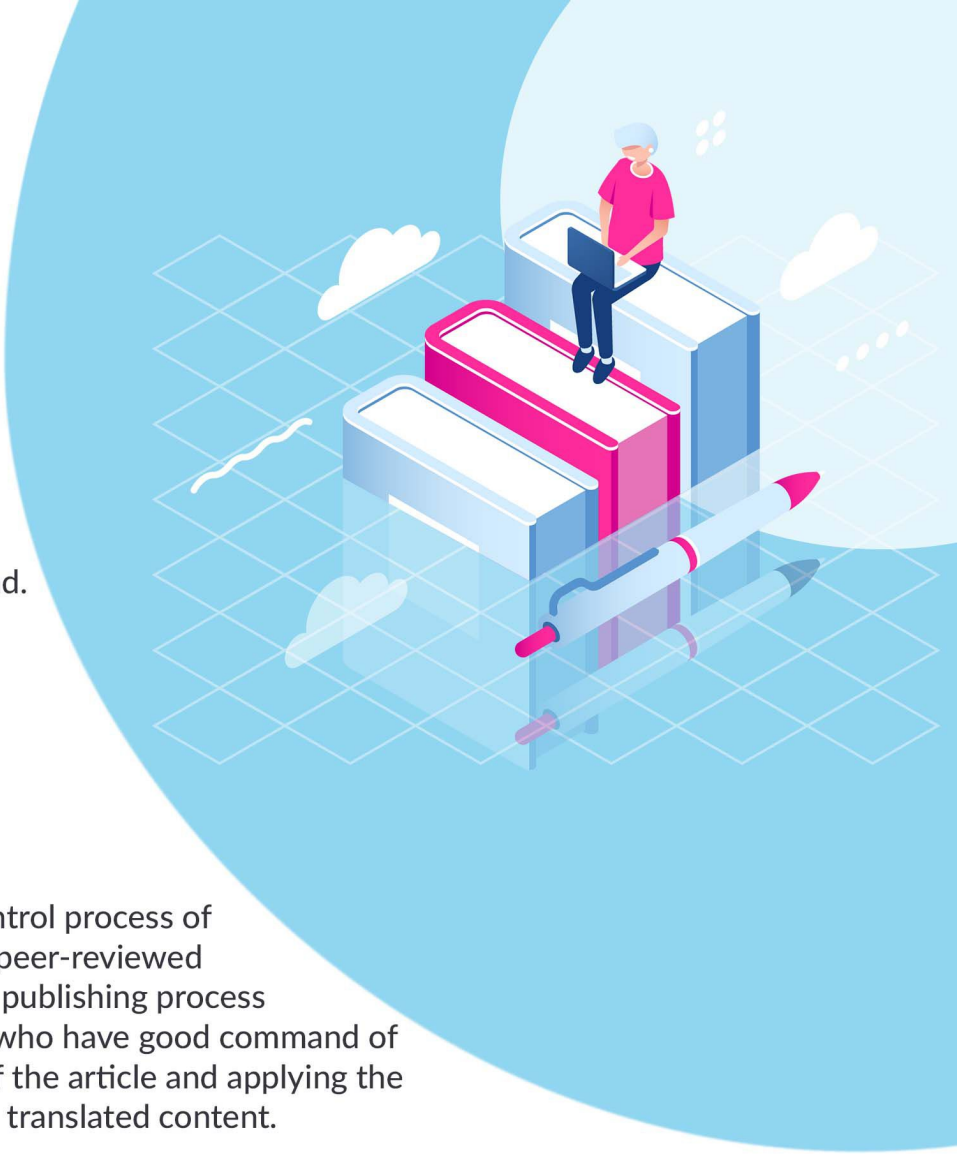

Since 2014, Protranslate has been providing academic translation services in 70+ languages to more than 5,000 people who have been executing academic research and want to extend their research to a wider audience abroad.

Especially during the translation and control process of research and articles to be published in peer-reviewed journals abroad, Protranslate makes the publishing process hassle-free by working with translators who have good command of both of the languages and the subject of the article and applying the two-stage quality control process to the translated content.

## **Protranslate Academic Translation Database with More Than 4 Million Words**

Translators of Protranslate, who are specialized in different academic subjects, use the academic translation database, which contains more than 4 million words as of today, to which all professional translations done in the academic field are saved in sub-categories. With its infrastructure that offers creating a database specific to the project, organizing a translator team, and creating a glossary of terms, Protranslate guarantees the use of perfect language and style, article writing rules, and accurate literature required by academic contents.
